

# **Niederrhein Institute for Regional and Structural Research - NIERS Niederrhein University of Applied Sciences**

**Presented Project: RegTrans – Regional Transfer Effects from  
Higher Education Institutions**

**Speaker:                   Angelika Jaeger**

# Project Information

SPONSORED BY THE

Federal Ministry  
of Education  
and Research

**Acronym:** RegTrans

**Project Name:** **Regional Transfer Effects from Higher Education Institutions**  
*Regionale Transfereffekte verschiedener Hochschultypen –  
Analysen und Strategien für eine verbesserte Potenzialausschöpfung*

**Participants:**

- 1) NIERS, Niederrhein Institute for Regional and Structural Research**  
Prof. Hamm, Angelika Jäger, Johannes Kopper
- 2) Ruhr-University Bochum, Department of Economics**  
Prof. Karl, Dr. Falk Strotebeck, Christian Warnecke

**Duration:** March 2011 – February 2014

# NIERS supports Smart Cities:

- By offering applied and policy consulting research
- By conducting regional analysis covering socio-economic topics

## Key Competencies and Research Areas:

- Regional labour markets
- Structural change, especially of old industrial regions
- Analysis of demographical change
- Locational conditions, regional incidence analysis,
- Cross-border studies
- Regional effects of infrastructure, especially higher education institutions

# Perspectives

**We are always interested in socio-economic, structural and regional research projects!**

**Especially, we are interested in (international) cooperative research!**

- **HEI-Studies:**

Project RegTrans on an international level,

„Regional Transfer Effects of different European Higher Education Systems“

- **Border Region Studies, e.g.:**

→ Demographic Development

→ Student and Alumni Migration

→ Agrobusiness
